Contact Us Today

Over two decades, we have been safeguarding Oregon's local governments with **customized IT, cybersecurity** and **compliance** solutions.

COMPREHENSIVE CLOUD, COMPLIANCE, CYBERSECURITY AND MANAGED SERVICES SOLUTIONS

Compliance-Focused Managed Services

With **over 20 years of experience** in Oregon, CTS has developed a deep understanding of local government IT operations and regulatory needs. We ensure you meet your **CMMC, CJIS, CIS18** and other regulatory requirements, helping you stay compliant and secure.

What You Can Expect:

- Regular **compliance audits** and **risk assessments**.
- **Proactive monitoring** to prevent security breaches and system failures.
- Access to **certified experts** who ensure that your IT systems are always aligned with the latest **regulatory guidelines**.

SkyDesk 365: Employee Productivity Solution

Our extensive knowledge of Microsoft systems, backed by our **multiple certifications**, allows us to offer **SkyDesk 365**—a secure, efficient, and compliance-ready solution that enables your employees to work productively from anywhere.

What You Can Expect:

- **Seamless access** to county systems from any location.
- **Enhanced collaboration** tools to improve team efficiency.
- A **compliance-ready infrastructure** that supports productivity while maintaining security.

Cybersecurity Solutions

Your organization's essential services, including emergency response and utilities, are at risk of cyberattacks. We provide cybersecurity solutions designed specifically for local governments so your systems and data remain secure.

What You Can Expect:

- **Zero Trust** architecture that requires every user and request to be verified.
- **Advanced threat detection** to neutralize threats before they can cause damage.
- **Custom security frameworks** to protect both public services and sensitive community data.

Fortify: Microsoft Cyber-Hardening

Our **Fortify** solution is designed to provide end-to-end protection for local governments using **Microsoft solutions**. Fortify secures your critical infrastructure and community data, adapting to your county's unique needs and challenges.

What You Can Expect:

- **Comprehensive protection** across your entire Microsoft environment.
- Solutions tailored to **fit your budget and meet regulatory standards**.
- **Continuous improvement** and **adaptation** to emerging threats.
