

ARE YOU PREPARED TO **DEFEND** & **COMPLY**?

COVENANT'S GOT YOU COVERED.

In today's digital world, you face a double threat: **cybercriminals** constantly devise new attack methods, and **compliance regulations** keep getting more complex.

This can leave you feeling overwhelmed – how can you secure your data and stay compliant at the same time?

COVENANT CYBERSECURITY SOLUTIONS

Fortify - Microsoft Cyber-Hardening

Elevate your Microsoft 365 environment with enhanced security measures to protect against sophisticated cyber threats.

Microsoft 365 Security Appraisal

A comprehensive review to identify and rectify potential vulnerabilities within your Microsoft 365 suite.

Cyber Assure Insurance Program

Offer organizations tailored cyber insurance solutions that minimize the financial impact of cyber incidents, while also incentivizing enhanced cybersecurity practices to reduce risks and premiums.

Copilot Readiness Assessment

Designed to evaluate and enhance an organization's cybersecurity preparedness by identifying vulnerabilities and strategizing improvements to mitigate future threats.

Grant Funding Solutions

We have resources with the expertise necessary to help you navigate the grant application process to secure funding for needed cybersecurity and compliance measures

WHY CHOOSE COVENANT FOR CYBERSECURITY?

Comprehensive Protection: From email to data storage, ensure every aspect of your Microsoft 365 environment is secure with **Fortify**.

Customized Assessments: Tailored security evaluations to identify specific vulnerabilities and mitigate risks before they're exploited.

Financial Risk Mitigation: With our **Cyber Assure** Insurance Program, reduce the potential financial burdens of data breaches and cyber attacks.

Preparedness: Ensure your organization is always a step ahead with our **Copilot Readiness Assessment**.

COVENANT COMPLIANCE SOLUTIONS

Compliance Solutions Package

Our comprehensive suite of services—including gap analysis, license alignment, infrastructure hardening, data isolation, and customized System Security Plans—to enhance security, protect sensitive data, and ensure adherence to evolving regulatory standards such as CMMC, CIS 18, ITAR, and CJIS.

CMMC- NIST 800-171

Achieve and maintain compliance with the Defense Department's cybersecurity standards.

CJIS Compliance Solutions

Ensure your law enforcement data handling meets Criminal Justice Information Services security requirements.

ITAR & NIST 800-53

Navigate the complexities of International Traffic in Arms Regulations and secure your information systems against the rigorous standards of NIST 80053.

HIPAA/HITECH

Protect patient health information with compliance strategies that meet and exceed HIPAA and HITECH standards.

Funding Solutions

We have resources with the expertise necessary to help you navigate the grant application process to secure funding for needed cybersecurity and compliance measures.

Partnering with Covenant was crucial for our **cybersecurity and compliance certification**. Despite our lack of technical expertise, **they made the complex requirements easy to understand and helped guide us through the process**. Their availability and support were key to meeting compliance and securing our confidence in our security posture. I highly recommend Covenant for any cybersecurity and

Michael L. Lester, President
Mason, Bruce & Girard

WHY CHOOSE COVENANT FOR COMPLIANCE?

Expert Guidance: Navigate complex regulations with the help of seasoned compliance professionals.

Proactive Strategies: Our solutions not only ensure compliance but also prepare your organization for future regulatory changes.

Comprehensive Coverage: From federal defense standards to healthcare privacy laws, cover all bases of compliance with our targeted solutions.
